Index of volume 4

abnormal pregnancy, scanning electron microscopy, 45
abortion, toxoplasmosis, 101
Abramovich, D. R., Heaton, B. and Page, K. R., Transfer of labelled urea, creatinine and electrolytes between liquor amnii and the fetoplacental unit in midpregnancy, 143
accelerated cervical dilatation, hydrocephalic breech presentation, transabdominal encephalocentesis, 215
acid–base equilibrium, amniotomy, fetal monitoring, induction of labor, prostaglandin E_2, 209
Agrafojo-Blanco, A., 45
Aiman, J., 25
Amery, W., 95
amniotomy, acid–base equilibrium, excess lactate, fetal monitoring, induction of labor, prostaglandin E_2, 209
Amy, J. J., 209
André, J. and Rocheford, H., Estrogen receptors: physiology and clinical applications (review article), 67
Andrews, J. W., 221
anorexia nervosa (mild), gonadotropin, HCG, infertility, secondary amenorrhea, 25
antiestrogen, suppression of lactation, tamoxifen, 167
antiestrogens, contraception, 67
antiprogesterone effect, implantation, midcycle contraception, progesterone binding sites, 161
Arts, N. F. Th. and Lohman, A. H. M., An injection–corrosion study of the fetal and maternal vascular systems in the placenta of the rhesus monkey, 133
axial rotation, uterine torsion, 41

Baimbridge reflex, blood pressure, pregnancy, 87
Baird, D. T., The endocrinology of ovarian steroid secretion, 31
Baulieu, E.-E., Antiprogesterone effect and midcycle (periovulatory) contraception (hypothesis), 161
Beller, F. K., 203
Besser, M., 25
bicornuate uterus, congenital uterine malformations, double uterus, uterine motility, 51
binding proteins, cancer, contraception, estrogen receptors, hypothalamus, mammary gland, pituitary, uterus, 67
blood pressure, position, pregnancy, Riva Rocci Korotkow method, 87
Braaksma, J. T., 51
Briët, J. W., 171
Brosens, I., 195
Bukovsky, I., 215

cancer, binding proteins, contraception, estrogen receptors, hypothalamus, mammary gland, pituitary, 67
Candida albicans, metronidazole, miconazole, vaginal trichomoniasis, 95
Candida tropicalis, metronidazole, miconazole, vaginal trichomoniasis, 95
Caspi, E., 215
cervical mucus, glass electrode, intracervical pH measurement (in vivo and in vitro), 61
cervical mucus, immunofluorescence, immunoglobulins, local immune response, spermatozoal antibodies, 147
Coelingh Bennink, H. J. T. and Menge, A. C., Spermatozoal antibodies in cervical mucus, 147
congenital uterine malformations, bicornuate uterus, double uterus, uterine motility, 51
contraception, antiestrogens, binding proteins, cancer, estrogen receptors, hypothalamus, mammary gland, pituitary, 67
contraception, copper T, intrauterine devices, location of IUDs, ultrasound, 203
corrosion technique, cotyledon, fetal vascular system, rhesus monkey, uteroplacental artery, 133
cotyledon, corrosion technique, placenta, rhesus monkey, uteroplacental artery, 133
creatinine and electrolyte permeability, fetal skin, fetal surface of placenta, liquor, urea, 143

De Bruijne, J. I., 101
De Haan, J., 171
De Hemptinne, D., 209
De Jong, P. A., 51
De Moor, P., 195
De Roever-Bonnet, H., 101
Derom, R., 209
Doppler test, screening for venous thrombosis, 127
double antibody, four-hour radioimmunoassay, kinetics, LH, 111
double uterus, bicornuate uterus, congenital uterine malformations, 51
Duncan, S. L. B., Pitchford, A., Gilliott, P. and Todd, J. H., Evaluation of Doppler test for venous thrombosis in obstetrics and gynecology, 127

Eckert-Stroink, J. A., 101
Eskes, T. K. A. B., 51
Eskes, T. K. A. B., Martinez, A., De Haan, J., Briët, J. W. and Jongsma, H. W., Pressure in the hydrocephalic fetal head during the first stages of labor, 171
Eskes, T. K. A. B., Weyer, A., Kramer, N. and Van Elteren, Ph., Arterial blood pressure and posture during pregnancy. A prospective study, 87
estrogen receptors, binding proteins, cancer, contraception, hypothalamus, mammary gland, pituitary, uterus, 67
excess lactate, amniotomy, induction of labor, prostaglandin E_2, 209

fertilization of in vitro matured oocytes, man, mouse, 15
fetal cardiac decelerations, decrease of materno-placental perfusion, umbilical cord compression, 171
fetal hydrocephalus, fetal intracranial pressure, first stage of labor, intraamniotic pressure, 171
fetal intracranial pressure, fetal hydrocephalus, first stage of labor, intraamniotic pressure, 171
fetal monitoring, acid–base equilibrium, amniotomy, induction of labor, prostaglandin E_2, 209
fetal skin, creatinine and electrolyte permeability, fetal surface of placenta, liquor, urea, 143

fetal surface of placenta, creatinine and electrolyte permeability, fetal skin, liquor, urea, 143
fetal vascular system, corrosion technique, cotyledon, placenta, rhesus monkey, uteroplacental artery, 133
Fox, H. and Agrafojo-Blanco, A., Scanning electron microscopy of the human placenta in normal and abnormal pregnancies, 45
FSH, gonadotropin production rates, LH–FSH/RH, 195

Gilliott, P., 127
glass electrode, intracervical pH measurement (in vivo and in vitro), 61
gonadotropin production rates, LH–FSH/RH, 195
Graafian follicle, 1

Hafez, E. S. E., 177
Heaton, B., 143
Hein, P. R., Stolte, L. A. M., Eskes, T. K. A. B., Janssens, J., Braaksma, J. T., Kars-Villanueva, E. B., Van der Harten, J. J. and De Jong, P. A., The motility of the nonpregnant congenitally malformed uterus, 51
human follicle-stimulating hormone, gonadotropin production rates, LH–FSH/RH, 195
human luteinizing hormone, gonadotropin production rates LH–FSH/RH, 195
human menopausal gonadotropin, induction of ovulation, 25
hydrocephalic breech presentation, accelerated cervical dilatation, transabdominal encephalocentesis, 215
hypothalamic–pituitary–ovarian axis, 31
hypothalamic–pituitary–ovarian feedback, ovarian steroid secretion, 31
hypothalamic stress syndromes, gonadotropin, HCG, infertility, secondary amenorrhea, 25
hypothalamus, antiestrogens, binding proteins, cancer, contraception, estrogen receptors, 67
hypothalamus, hormone secretion, 31

ilio-femoral thrombosis, Doppler test, screening for venous thrombosis, ultrasound, 127
immunofluorescence, cervical mucus, immunoglobulins, infertility, local immune response, spermatozoal antibodies, 147
immunoglobulins, cervical mucus, immunofluorescence, infertility, local immune response, spermatozoal antibodies, 147
induction of labor, acid–base equilibrium, amniotomy, excess lactate, fetal monitoring, prostaglandin E_2, 209
infertility, cervical mucus, immunofluorescence, immunoglobulins, local immune response, spermatozoal antibodies, 147
intraamniotic pressure, fetal hydrocephalus, fetal intracranial pressure, first stage of labor, 171
intracervical pH measurement (in vivo and in vitro), glass electrode, 61
intrauterine devices, contraception, copper T, location of IUDs, ultrasound, 203
Intrauterine growth retardation, low birthweight, maternal malnutrition, mental subnormality, organic brain damage, prematurity, social conditions, 177
intrauterine infections, parasites, pregnancy, toxoplasmosis, 101
in vitro matured oocytes (fertilization of), man, mouse, 15

Janssens, J., 51
Jongsma, H. W., 171

Kars-Villanueva, E. B., 51
Kloosterman, G. J., 101
Klopper, A., Aiman, J. and Besser, M., Ovarian steroidogenesis resulting from treatment with menopausal gonadotropin, 25
Koninckx, Ph., De Moor, P. and Brosens, I., LH–FSH/RH: an equally potent stimulus for the release of HLH and HFSH, 195
Koppe, J. G., Kloosterman, G. J., De Roever-Bonnet, H., Eckert-Stroink, J. A., Loewer-Sieger, D. H. and De Bruijne, J. I., Toxoplasmosis and pregnancy, with a long-term follow-up of the children, 101
Kramer, N., 87
Krzaniak, S., Torsion of fibroid uterus resulting in profound shock, 41

lactation (suppression of), antiestrogen, tamoxifen, 167
laparoscopy, arrhythmias, cardiac arrest, cautery of viscus, dehiscence, electrical burns of abdominal wall, emphysema, fatality, hematomas, hemorrhage, infection, perforated viscus, sterilization, 221
LH, gonadotropin production rates, LH–FSH/RH, 195
LH–FSH/RH, gonadotropin production rates, 195
Lieder, B., 203
liquor amnii, creatinine and electrolyte permeability, fetal skin, fetal surface of placenta, urea, 143
local immune response, cervical mucus, immunofluorescence, immunoglobulins, infertility, spermatozoal antibodies, 147
Loewer-Sieger, D. H., 101
Lohman, A. H. M., 133
low birthweight, intrauterine growth retardation, maternal malnutrition, mental subnormality, organic brain damage, prematurity, social conditions, 177
luteinization, oocyte maturation, ovulation, rat, 15
luteinizing hormone, double antibody, four-hour radioimmunoassay, kinetics, 111

mammary gland, binding proteins, cancer, contraception, estrogen receptors, 67
Martens, G., 209
Martinez, A., 171
maternal malnutrition, intrauterine growth retardation, low birthweight, mental subnormality, organic brain damage, prematurity, social conditions, 177
materno-fetal perfusion (decrease of), fetal cardiac decelerations, 171
maturation division, ovulation and luteinization, 15
Menge, A. C., 147
mental subnormality, intrauterine growth retardation, low birthweight, maternal malnutrition, organic brain damage, prematurity, social conditions, 177
metronidazole, miconazole, moniliasis, vaginal trichomoniasis, yeast infections, 95
metropathia hemorrhagica, gonadotropin, HCG, infertility, secondary amenorrhea, 25
Meuwissen, J. H. J. M., Transuterine sterilization at unilateral salpingography. A preliminary report, 153
miconazole (R 14 889), metronidazole, moniliasis, vaginal trichomoniasis, yeast infections, 95
microelectrodes, cervical mucus pH measurement, 61
midcycle contraception, antiprogesterone effect, implantation, progesterone binding sites, 161
moniliasis, metronidazole, miconazole, vaginal trichomoniasis, yeast infections, 95

Nuyens, A. J. J. and Andrews, J. W., Hazards of laparoscopic tubal sterilization (review article), 221

oocyte maturation (in vivo and in vitro), mouse, rat, time lapse cinematography, 15
organic brain damage, intrauterine growth retardation, low birthweight, maternal malnutrition, mental subnormality, prematurity, social conditions, 177
ovarian steroidogenesis, menopausal gonadotropin, 25
ovarian steroids, concentration, 31
ovarian tumor, uterine torsion, 41
ovary, hormone secretion, 31

Page, K. R., 143
parasites, intrauterine infections, pregnancy, toxoplasmosis, 101
Peeters, F., Snauwaert, R., Van Cutsem, J. and Amery, W., A controlled trail with miconazole (R 14 889) in the prevention of yeast infections occurring after treatment of vaginal trichomoniasis, 95
pH of cervical mucus, glass electrode, in vivo and in vitro measurements, 61
Pitchford, A., 127
pituitary, antiestrogens, binding proteins, cancer, contraception, estrogen receptors, 67
pituitary, hormone secretion, 31
placenta (human), pregnancy (normal and abnormal), scanning electron miroscopy, surface ultrastructure, 45
polycystic ovarian syndrome, gonadotropin, HCG, infertility, secondary amenorrhea, 25
position during pregnancy, blood pressure, Riva Rocci Korotkow method, 87
pregnancy, Baimbridge reflex, blood pressure, Riva Rocci Korotkow method, 87
pregnancy, intrauterine infections, parasites, toxoplasmosis, 101
prematurity, intrauterine growth retardation, low birthweight, maternal malnutrition, mental subnormality, organic brain damage, social conditions, 177
progesterone binding sites, antiprogesterone effect, implantation, midcycle contraception, 161
prostaglandin E_2, acid–base equilibrium, amniotomy, excess lactate, fetal monitoring, induction of labor, 209

Quakernack, K., Schmidt, E. H., Lieder, B. and Beller, F. K., The identification of IUDs by ultrasound in the uterine cavity, 203

radioimmunoassay (four-hour), double antibody, kinetics, LH, methodology, 111
Regnier de Graaf, contributions to reproductive biology, 1
Riva Rocci Korotkow method, arterial blood pressure, posture during pregnancy, 87
Robyn, C., 111
Rocheford, H., 67

scanning electron microscopy, placenta (human), surface ultrastructure, 45
Schmidt, E. H., 203
Schreyer, P., Bukovsky, I., Weinraub, Z. and Caspi, E., Transabdominal encephalocentesis of hydrocephalus associated with breech presentation (case report), 215
secondary amenorrhea, human menopausal gonadotropin, 25
Setchell, B. P., The contributions of Regnier de Graaf to reproductive biology, 1
Shaaban, M. M., Suppression of lactation by an antiestrogen, tamoxifen, 167
shock, uterine torsion, 41
Snauwaert, R., 95
social conditions, intrauterine growth retardation, low birthweight, maternal malnutrition, mental subnormality, organic brain damage, prematurity, 177
sterilization, arrhythmias, cardiac arrest, cautery of viscus, dehiscence, electrical burns of abdominal wall, emphysema, fatality, hemorrhage, infection, laparoscopy, perforated viscus, 221
sterilization, hysterosalpingography, transuterine tubal cauterization, unilateral salpingography, unilateral tubography, 153
stillbirth, toxoplasmosis, 101
Stolte, L. A. M., 51
suppression of lactation, antiestrogen, tamoxifen, 167
surface ultrastructure of the placenta (human), pregnancy (normal and abnormal), scanning electron microscopy, 45

tamoxifen, antiestrogen, suppression of lactation, 167
Thiery, M., Yo Le Sian, A., De Hemptinne, D., Derom, R., Van Kets, H., Martens, G. and Amy, J. J., Elective induction of labor at term by amniotomy and intravenous prostaglandin E_2, 209
time lapse cinematography, mouse, oocyte maturation in vivo and in vitro, rat, 15
Todd, J. H., 127
toxoplasmosis, intrauterine infections, pregnancy, 101
transabdominal encephalocentesis, accelerated cervical dilatation, hydrocephalic breech presentation, 215
transuterine tubal cauterization, hysterosalpingography, sterilization, unilateral salpingography, unilateral tubography, 153
Trichomonas vaginalis, metronidazole, miconazole, yeast infections, 95
trichomoniasis, metronidazole, miconazole, moniliasis, yeast infections, 95

ultrasound, contraception, copper T, intrauterine devices, location of IUDs, 203
ultrasound, Doppler test, ilio-femoral thrombosis, screening for venous thrombosis, 127
umbilical cord compression, fetal cardiac decelerations, 171
unilateral tubography, hysterosalpingography, sterilization, transuterine tubal cauterization, unilateral salpingography, 153
urea, fetal skin, fetal surface of placenta, liquor, permeability, 143
uterine fibroid, uterine torsion, shock, 41
uterine motility, congenital uterine malformations, 51
uterine torsion of 540 degrees, shock, uterine fibroid, 41
uteroplacental artery, corrosion technique, cotyledon, placenta, rhesus monkey, 133
uterus, binding proteins, cancer, contraception, estrogen receptors, 67

vaginitis, metronidazole, miconazole, moniliasis, trichomoniasis, 95
